FUTURITIES TO BE WELL-FILLED

Edmonton Exhibition Directors Close the Lists—Many Alberta Nominations

The futurities which are to be held in connection with the Edmonton Exhibitions of 1912 and 1913 have filled nicely, there being entries from all the Western Provinces.

The Edmonton futurity for harness horses for 1912, is for foals of 1909 and here are 46 entries. Saskatchewan has 2, Alberta 9, Manitoba 2, and Ontario 3. The Alberta nominators are: J. B. Mercer.

are: J. B. Mercer, Harvey T. Seaman, J. H. McNulty, Wm. Johnson, all of Strathcona; R. O. Jackson, Taylor & Sparks, Edmonton; J. R. Sutherland and Wm. Parslow, of Calgary; W. C. Talbot, of Irma. The get of that well-known sire, Leland Onward, is well represented. Payments due are: December, 1, 1910, \$10; Sept. 1, 1911, \$20; Day before race \$20.

Futurity of 1913
The Futurity of 1913 has filled wonderfully well, there being 57 entries. This race is for foals of 1910, and many well-known owners in the west have decided to go after the rich purse. Alberta has 39 entries, Saskatchewan 11, Manitoba 12, and Ontario 4.

The Edmonton entries are: Charles May, Texas; Ed. Auld, Zenon; R. J. Manson, Maggie L.; Alice Brenza; and Norma Lockhart; Taylor and Sparks, Bermuda Queen; Alex. McDonald, Anita.

From Strathcona the entries are: Harvey T. Seaman, Mimmie Swigert, and James Harkaway; V. T. Richards, Norma Nelson; J. B. Miller, Alberta; J. H. McNulty, Cascade; W. N. Johnson, Crystal Maze; and Wade; J. C. Renton, Tilley D.; E. A. Reid, Llewellyn and Swan.

Other nominators are: E. W. Pixley, of Hill End, Alta.; Bone; E. R. Sutherland and Wm. Parslow, Calgary; Marjorie and Fan Tan; Lady S. by John Matheson, of High River; Royella, The Nurse, Elfrida and Daisy, by J. W. Tilden, of Red Deer;

Topsy T., by J. W. Morton, of To-field; Maud, by W. H. Eggleston, Wetaskiwin; Gipsy Brino, and Jennie Wisdom, by Fred N. Johnston, Okotoks.

The Prairie Stock Farm of Battleford, Sask., are the largest nominators having sent in seven entries. Payments due as follows:

Trainers

\$3.00 Nov. 1, 1910 \$10.00
8.00 Nov. 1, 1911 8.00
8.00 Nov. 1, 1911 8.00
25.00 Sept. 1, 1912 20.00
30.00 Day Before Race 20.00

\$75.00 \$50.00

CANT KILL RUGBY

The Calgary Herald says: There was some talk to the effect that a defeat from the Calgary boys would kill rugby in Edmonton, but there is no truth in this. The Edmonton team is there to stay the season according to the supporters, and they have every confidence in the team's ability, when they have the proper practice after coaching. Their weight in nearly every position exceeded that of the Y. M. C. A. boys but, they lacked in speed and also fumbled considerably. In the fine points of the game perhaps Calgary had the advantage, but Edmonton never lost heart and fought until the last moment of the game. In the second half they had accomplished a well deserved try. Due to Wilson carrying it over the line after a run of 30 yards. Wilson on other occasions, made excellent ground but on no occasion did they equal the rushing accomplished by Wark, of Calgary, who in one play ran two-thirds of the field, escaping two flying tackles and tearing straight ahead and forcing back his opponents.

SMITH FOR ST. LOUIS

Wally Smith, of Calgary, will go to the St. Louis Nationals.

It was announced that Wally was being signed by the New York Nationals, but the New York draft was for Calgary, while the St. Louis club drafted him direct from Vancouver and this latter draft has been allowed by the National Commission.

SERIES STARTS IN OLD PHILLY

Special Trains Play Large Part in World's Series Games First Game October 17

Cincinnati, O., Oct. 5.—Fate played its part this afternoon at the meeting of the National Baseball commission when a coin of even decided that the first game for the world's baseball championship between Philadelphia and Chicago would be played in Philadelphia.

A few moments later the supreme court of baseball announced that the contests would begin at 2 p.m. on Monday, October 17; the second game on Tuesday, October 18, at Philadelphia; the third game on Thursday, October 20 at Chicago; the fourth game on Friday, October 21, at Chicago.

In case other games are required to settle the supremacy a fifth game will be played Saturday, October 22, after a hurried run in a special train from Chicago to Philadelphia; and in case another game is required another hurried run in a special train will be made from Philadelphia to Chicago in time to play the sixth game in Chicago on Sunday, October 23.

LALJOIE OF CLEVELAND

The Cleveland fans are not above the league standing. It is the Peerless Lajoie's daily batting figures that interest them. And don't think for a minute they are overlooking the Georgia Peach.

On the blackboard at the Cleveland grounds where the scores are called the fans are shown how Ty is hitting. Every time that Ty goes to bat, and the result of his time at the teeing ground is known, the score is chalked up on the blackboard where the feverish fans can watch.

Billy Smith who managed the Buffalo Eastern league team, has returned his old love, Chattanooga. The Eastern was a wee bit too fast for Buffalo Bill.

ESKIMOS MUST PRACTICE.

The practice fast evening of the Edmonton Football club was very sparsely attended and was far from encouraging to Coach Belanger who is giving up much valuable time toward helping the rugbyists along. There were not more than ten players out and nothing more strenuous than punting and returning kicks could be practiced.

A full practice is called for Thursday at 5, and every member of the club is requested to be on hand. The following are particularly asked to be on the job: McCarthy, Cormack, Wilson, Conway, Dykes, Crichton, Roughan, Barnes, A. Macdonald, Gibson, Bishop, O'Donahue, Parville, Kennedy, Starter, Scrapper, McDermid, Grant, Griever, Murphy.

It is only a fable over two weeks before the first game for the Belanger cup takes place, and if the Eskimos want to be successful over the Calgary bunch they must turn out to practice.

MR. ECKSTORM FAVORS LEAGUE

On His Way to World's Series Will Visit Butte, Helena and Great Falls—Averages Ready Friday

In a letter received at the Daily Capital office yesterday from C. J. Eckstorm, the president conveys the pleasing information that the Western Canada league averages will be sent out in time to be released on Friday. The Brandon club, which has been the cause of the delay, have sent in their scores, and the figures are now in the hands of the printer.

Mr. Eckstorm says: "I am sure you will find these averages as nearly complete as they can be. I have applied no pains in my efforts to have them absolutely correct as I realize that a base ball player's stock in trade is his official record and consequently it should be right."

President Eckstorm is leaving for the East next Monday, along with J. D. Fleming, to see the world's series games between Chicago and Philadelphia. As Calgary refused to play, the president is determined to see some post-season games, even if he has to travel many miles to do so.

The date for the annual meeting of the W. C. L. has not been set, but will be after Mr. Eckstorm returns from his trip. (The president says regarding the meeting: "I am going to stop at Great Falls, Helena and Butte on my way East to see what they think of this International league. I am doing this so that when we have the annual meeting we will know the sentiments of all the clubs so we can act intelligently. I believe we have reached the stage when we must have sport, and I fully expect to see a good league established, and by adopting the proper policy the league can become a permanent feature.")

WILD BILL DAHLEN

Bill Dahlen, the Brooklyn club's manager, is a great man to give new players a chance. A few weeks ago he sent a recruit out to coach, with instructions to make all the noise he could. The youngsters had a bad case of stage fright and never whimpered after he got out in front of the crowd. Dahlen waited a few minutes, and then calling him in, said: "My brother, beat it back home. You might make a success as a tombstone in a graveyard, but you'll never do on a diamond."

HAVE TWO PENNANTS

Manager Deacon White says the best way to settle the Western Canada League difficulty is to award pennants for both series. Sounds good, too.

MERINO AND THOMPSON

Bob McDonald is making arrangements to bring Merino and Thompson here for a 13 round bout in two weeks' time. The exhibition will be held in Edmonton if a permit can be obtained, otherwise, in Strathcona.

"All the rugby members of the force will enjoy this year will consist of their efforts to keep the crowd back from the side lines," said Chief Smith of Hamilton. Evidently the chief is of the opinion that police duties and rugby do not go well together.

BUTTE FAVORS NEW LEAGUE

International Would Create Much More Interest than Inter-Mountain

Calgary Oct. 5.—Moose Baxter of the Turkish faith is interesting himself in the organizing of the International league. Moose wrote Spike Haines, sporting editor of the Butte Miner, and several other papers. Moose received a reply from Spike Haines, who very much favors such a proposition. He asked that statistics be sent him with the amount of gate receipts and attendance during the year at Edmonton and Calgary. This sporting writer asks if it is not possible to send down a man and talk things over in the three Alberta cities. He says such would create more interest, and result in some definite action being taken.

Moose replied to the letter, and stated that Edmonton drew an attendance of 46,000, and Calgary close to the 50,000 mark.

The sporting editor of the Butte Miner said such a league would create more interest than the city league or the Inter-Montana league of last year.

He asked that all the information possible be sent him, and he will take the matter up with the baseball moguls of that city.

CRAWFORD PANS COBB

Some recent criticism of Sam Crawford because of his falling off in batting, and slowing up in speed brought from that player yesterday an answer in which he stated that too much Cobb was the reason the Tigers lost the pennant this year. He said that he and Bush were not on speaking terms with the Georgian, though Cobb first joined the team Crawford used to take his part when other players "called" him for his "freshness."

"He finally became unbearable," said Sam. Crawford criticized the policy of the club in permitting Cobb to do practically as he pleased, saying it made harmony in the ranks impossible. Sam also blamed the offering of an automobile as a batting prize for a share in the Tiger slump. "It made Cobb forget team play and look only for base hits," said Crawford.

SPARKS.

Chicago Nationals will clear over \$250,000 this year.

Derias, the Swiss wrestler, sails for Montreal next Thursday to meet Frank Gotch.

Secretary Jim Brown of the Vancouver B. B. club has visions of managing a team in the Twilight league next season. There may be an opening in Calgary for Jim.

President Brush of the Giants now expresses himself as favorable to a post-season series with the Highlanders.

Fred Blanding, a former U. of M. star, had an auspicious debut in major league baseball. Pitching for Cleveland, with the peerless Walter Johnson as opponent, the rah rah boy not only shut out the Senator, but fanned eight men and allowed only six safeties.

CALGARY COMMENT ON ESKIMOS

(The Albertan)

Coach Belanger of the Edmonton team, says he is well satisfied with the showing made by the Eskimos. With more practice and a little team work he is of the opinion the boys will be O. K.

Gibson, of the Edmonton team, is a good man, and played a great game but O'Donahue, of which much was expected, did not meet the expectations of his friends.

Manager Benjamin, an old Calgary rugby enthusiast, is putting in a lot of time on the game. He is trying to organize a three-club league, and thinks this will give the boys enough practice and experience to round them into a good team.

Cornfoot, Morgan and Dumphy made a good fast time. They are fast, good tacklers, safe catches and punt hard.

McMaster is a good addition to the Y. M. C. A. front line. Last season he played a good game for the Tigers, and he is doing just as well this year.

Colville made some good runs. On one occasion he took the ball near his own line, and went half the length of the field. He held his own man down and got the best of him all the way through.

Rev. Robt. Pearson and Hal. Burnham made a good pair of officials. They did not let much get away from them.

Stark is a good man and plays a hard game. So is McCarthy, and with more practice these two will make a good showing this season.

The crowd was not a very large one, no doubt they did not take the game seriously, and were waiting for the series to show their enthusiasm.

The Canadian Northern Railway Route Plans Not Approved, But Construction Started.

RAILWAY COMMISSION

Met in Ottawa Yesterday and Several Plans Were Approved by Minister.

Ottawa, Oct. 4.—A number of railway route maps were approved by the Minister of Railways this afternoon, when revision of the Canadian Northern route between Prince Albert and Battleford was called. President William MacKenzie appeared on behalf of the company, and George Langley, M.P.P., appeared on behalf of the people. Communications were read from the people of North Battleford and Albert; Champagne, that the line did not run directly into Battleford. The minister was astonished when Mr. Langley informed him the company was building without approval of the route maps or location plans. President MacKenzie did not deny the fact since that the board of railway commissioners would not sanction a route which had been approved of the maps and plans was obtained and he deprecated the practice of some people transgressing in this way. They had been helped out by parliament, but the thought parliament would before long not grant any relief to people who deliberately did what they know they should not do. Mr. Langley succeeded in his protest to the extent that revised route was approved only from Prince Albert westerly to west side of Redberry Lake. Alex Smith, of Ottawa, appeared on behalf of the Alberta Central Railway company for a revision of the route map from Mile Forty east of Red Deer to Sounding Creek, and for a new route from Hounding Creek to Moose Jaw. Both applications were approved. The application made by Guthrie for approval of a route map for the Burrard Tunnel and Bridge company of Vancouver, but on the objection of Mr. Smellie on behalf of city, and objections by Mr. Craig of Vancouver, and Alex Smith, of Ottawa, on behalf of the V. W. and Y. Railway company, the hearing was adjourned for eight days.

In addition to these mentioned above were Canadian Northern Railway to Springfield, new yards for East Selkirk, G. T. P. division of the Regina boundary branch, G. T. P. branch line from Biggar westerly, G. T. P. Branch Lines company in revisions to Prince Albert.

The Pacific ocean covers 68,000,000 square miles, the Atlantic 30,000,000 and the Indian, Arctic and Antarctic oceans 42,000,000.

The Triangle Spider.

An interesting fact is that of the triangle spider, which spins one of the most remarkable types of spider's snares as yet known. The web is triangular, and the spider holds it tightly stretched by means of a thread. When a fly gets entangled this thread is loosened and the victim is enclosed more securely.

Roman Catacombs.

The Roman catacombs are 650 miles in extent.

Servian Cruelty.

The Servians have long been notorious for the cruelty exercised by them in the punishment of political prisoners. They are confined in subterranean cells, with just enough air to keep them alive. The fortress at Belgrade contains a deep well, dating back to Roman times, which is believed to contain the skeletons of many of these prisoners.

Military Education.

The education of each officer in the Russian military schools costs \$1,320, compared with the German average of \$875 and the Austrian average of \$1,325.

Vacation Joys.

"It seems as hot here as it was in town. What's the advantage of coming to the country?"

"We ain't got no thermometer to rub it in on ye."—Cleveland Leader.

Great Shrinkage.

The last year's bathing suit will shrink, and shrink both day and night.

Until at last it shrinks so much.

The bathers shrink from right.

The Everlasting Tip.

The Upping evil, I confess, most dreadfully prevails.

We cannot watch ourselves when we sip the haughty scales.

—New York Times.

REVOLUTION REARS.
(Continued from Page One)

The Reuter Telegraphic company has had no communication with Portugal since yesterday and the direct Spanish Cable company, which operates its wires through Spain reports no communication today beyond Madrid.

The news of the revolution depressed foreign stocks fractionally on the stock exchange. Portuguese securities fell from sixty-eight to sixty and Consols eased 18 in sympathy. There was, however, not much selling and the pressure had little effect on other sections of the market.

The Portuguese consulate also was without official information from Lisbon. An official of the consulate said

candidly that the news of a revolution was not unexpected for a long time. He said there has been great dissatisfaction with the state of affairs on the part of Republicans mainly because they had concluded from the progress made by Brazil that progress in Portugal can be made only under a Republican form of government.

Government Prepared.

Madrid, Oct. 5.—The Spanish telegraphic authorities announced this afternoon that they were trying to communicate by wireless with the British Fleet supposed to be off Lisbon or near the Portuguese or Spanish coast. "El Imperial," an official organ, at that time declared the government was prepared to mercilessly crush a revolution.

Is King Manuel Safe?

Paris, Oct. 5.—It is stated at the Brazilian legation here today that

King Manuel had taken refuge on the Brazilian battleship Sao Paulo.

Rome, Oct. 5.—Grave apprehensions are felt over the news from Portugal. Private reports are to the effect that the Royal Family has been imprisoned and a republic proclaimed. Interest here is intense, especially as the Queen Dowager, Maria Pia of Portugal, is an aunt of the Italian King while the Vatican is anxious over the religious situation and the possible effect it may produce in Spain.

All Wires Are Cut.

Madrid, Oct. 5.—There has been no communication between Madrid and the Portuguese capital since Tuesday morning. The only news of the revolution came by wireless from Santander. It is believed here that the revolutionists have cut the telegraph wires with the intention to restore them only when they are prepared to announce

to the world that a republic has been proclaimed.

Paris, Oct. 5.—The Temps understands that King Manuel has embarked on an English warship.

Madrid, Oct. 5.—The members of the Spanish Republican clubs and circles today decorated their buildings in celebration of the revolution in Portugal.

Say you saw it in the Capital.

TO BUILD A BIG STORE**First, Build a Big Merchant**

Emerson said that "an institution is but the lengthened shadow of one man."

A store is no greater than its owner. It will grow up to the stature of his biggest ideas—but no larger.

Every store in this town is GROWING UP TO ITS OWNER'S SIZE.

So that, no matter how small it is today, it will become a big as he determines it shall be.

For your "natural merchant" is a big advertiser. He may be able, just now, to use but a small space—but he is getting ready to use big space. And he uses the small space PERSISTENTLY, making the advertising as inevitably a part of his expense as anything else—and aiming at a constant expansion of the space used.

That sort of merchant will Build a Big Store—for he is, potentially, a Big Merchant already.

A FIVE MILLION.
(Continued from Page One)

will get the foundation ready at once.

When we are ready to start construction we will start in a hurry and complete it in six or eight months.

The Pittsburg firm will be obliged to forfeit \$1000 per day for each day they take in excess of a month in the erection of the steel work. If the material and labor were all on hand, it will be an easy matter to complete the building between six and eight months.

Of course if we had to depend on local contractors and labor it might take us three years. But we won't. A start on the foundation for the college itself will also be commenced within the next few weeks.

Mr. Davison has the plans for the buildings in his possession and the one which he showed the Capital, namely the plans for the College, measured over eleven feet in length.

1041 Jasper Avenue East.

JAMES MURPHY,

Plumber and Sanitary Engineer.

WILL NOW CENTRALIZE THE CIVIC ACCOUNTING AFFAIRS

"We beg to report that after careful consideration we have concluded to centralize the city's accounting, commencing November 1st, 1910, the beginning of the first of the next fiscal year. This change is considered essential in the public interest for the proper and effective supervision of the city's affairs. The operations of the various departments will not be affected by the change excepting it will relieve them of keeping their capital, equipment, maintenance and operation accounts. Their relations with the public will remain as at present."

That was the apparently innocent report of the commissioners that brought on a hot discussion at the city council meeting last night.

For some time the aldermen opposed it, but (—)

Mr. Bonillon was asked to explain the change and he replied that it was for the purpose of having further check on the city's business. Under the present system, the commissioners had no means of finding out what was transpiring in the various departments.

"There is nothing, now," he said, "to prevent a department buying a house and charging it up to the city, and one would never know the difference."

Aldermen McInnis and Miller indulged in criticism of the proposal, while Alderman Hyndman also asked a number of questions alternately expressing the belief "that Mr. Bonillon was on the right track."

"We are now facing the city's business," said Commissioner Bonillon in explaining his scheme, "to those interested in making the best showing in the different departments. Take the case of the power house for instance. There is nothing to prevent mistakes in operation being charged up to capital account."

"Your scheme will mean the centralization of all responsibility on the commissioners," remarked Ald. Hyndman.

"What did you hire me for—for a figurehead?" the commissioner asked.

The Heads of Departments. "Do I understand that you cannot place responsibility on the heads of your department?" inquired Ald. Miller.

"There is no question of personal confidence," replied Commissioner Bonillon with some heat. "Does the question of confidence arise in your negotiations with a bank? Our civic utilities should be on just as good a basis as a bank."

"Treat the superintendents responsible."

"I don't know."

"I can tell you now that there are some in which I have not confidence. I am not making these recommendations on trial. I know what I am doing."

Ald. Hyndman: "Take an instance to illustrate your idea. Do you know what will happen with 1,000 tons of coal purchased at the power house?"

"Will you by your new system?"

"Yes, we can do everything possible, to detect any loss."

"I think you are on the right track then."

"I also think the commissioner is right," said Ald. Mould.

The report was then adopted unanimously, and on request of Ald. Garvey the vote was recorded.

Aldermen Landy, McInnis, and Garvey were appointed a committee to report on the cost, location, etc., of the proposed east end bridge.

Claiming to represent \$25,000,000 of American capital, two men, named Hall and Davis, having no outward pretensions of being the agents of such enormous wealth, got up in the council chamber last night and in the calmest manner possible proceeded to enumerate a proposition which flattered, gilded and completely took the wind out of the sails of seven quiet city fathers and an equally quiet chief magistrate.

The proposition was explained by the two men in brief. To establish an industrial college here, wherein twenty-five branches of education and one hundred industrial trades would be taught, involving the erection of an eight-storey modern fire proof building, 300 feet by 300 feet in the centre of the city, to cost not less than \$1,500,000, the same to be erected in about ten months, and a college building to cost the astonishing sum of \$3,000,000, near, if not in the city.

The explanation followed a report of the commissioners recommending the refusal of a request made by two men named Hall and Davis, for permission to erect an iron-clad building within the first class fire limits.

Both men were present and Mr. Hall arose and explained why the erection of the building was desired.

It appears that the iron-clad building in question is to be merely a temporary structure where the office of the corporation was to be located pending the construction of the eight-storey building. Accommodation was desired for an office staff of forty. The building would be removed within a year, the company being prepared to guarantee that. A suitable site on Jasper Avenue would be desired and the building would be no disgrace to the street. Mr. Hall stated that the erection of a temporary building would be necessitated by the lack of proper office accommodation.

"We represent large capital in the United States," said Mr. Hall, "and are prepared to do the thing up right. The eight-storey building we intend to erect will be of the most modern type, and fire-proof, in fact we won't carry any insurance on it. It will cost between \$1,500,000 and \$2,000,000. The industrial college will be erected in or near Edmonton and will cost \$2,000,000. We are already negotiating with the Hudson Bay company for a site on Jasper Avenue, and as a proof of good faith I may say that we are prepared to go ahead with the laying of the foundation of the main building right away, and will finish the building in eight or ten months. We are almost ready to sign the contract and according to it the contractors will forfeit \$100,000 a day for each day in excess of the stipulated time they take in completing it, and we are prepared to pay \$2,000 per day to the contractors for each day they take within the stipulated time. There will be nothing like the building when completed between Winnipeg and the Pacific Coast."

Mr. Hall was not asked for the name of the corporation he represented, but after the council adjourned, when interviewed by the Capital, Mr. Hall stated that he and Mr. Davis represented the Great American Industrial College of Pittsburgh.

Alderman Miller advanced the opinion that as the building referred to in the report was to be used merely as a temporary structure pending the erection of the eight-storey building, they could not be prevented from erecting it.

A motion was made that the matter be referred back to the commissioners giving them power to act, but Mr. Hall stated that even a week was of considerable amount to them now as winter was coming on and it was desirable to proceed with the completion of plans as soon as possible.

"We are in conference with our engineers and architects now," he said, "and we are ready to proceed."

The commissioners were instructed to let Mr. Hall know as soon as possible in regard to whether permission will be extended to them for the erection of the temporary building.

The request of the Capital Curling Club for permission to encroach upon two feet of a public lane at the rear of their premises was refused as constituting a dangerous precedent if granted.

Following a communication from the United Aids, in reference to the ill-treatment of laborers by Grand contractors, the commissioners asked for power to assist in the exposing of the condition of affairs to the management of the railway company.

The request was granted.

The changing of the numbers of houses on Ottawa and Government streets and in all avenues running west from First street was authorized.

The scheme of the commissioners for the grading of Second street was approved.

The post office department will be notified that the city cannot make any better offer for the carrying of postmen than \$25 per man per annum.

In regard to the insurance on the buildings at the exhibition grounds, a request was received from Manager Harrison for provision for the premium amounting to \$1,804.50. A motion granting the request was put and carried.

The protest of the Drummond-McCall Company against the retention of their deposit check for \$100,000 as guarantee of the efficiency of a motor, purchased from them, was denied.

The motion was filed.

W. H. Smith asked for a rebate of a license fee of \$100 paid to the city for the operation of a penny arcade which failed after sixty days' operation, in order that he might pay off an account on the books of the electric light department. The city solicitor reported that there was no provision in the license by-law permitting him to meet the request. The request was refused.

The Society for the Prevention of Cruelty to Animals requested a grant to assist in the carrying on of their work. The request was laid over.

The resignation of Dr. Wilson from the board of health was read. No reasons were given for the action. The resignation was accepted.

Robt. McDonald requested that the ordinance prohibiting boxing contests within the city limits, be repealed.

"We haven't got a pugilistic committee of the council, have we?" asked Ald. Hyndman.

"Wait till next month," answered another alderman.

Ald. Hyndman could not see that there was any law preventing two men getting up and having a friendly bout.

The matter was referred to the chief of police with power to act.

Li-Col. Edwards' letter to the council in connection with the proposed new armories was read. Col. Edwards stated that if a site of sufficient size was granted, a building to cost not less than \$200,000 would be erected by the militia department. The city has an option on a half a block directly west of the high school, but the department requires the whole block. The commissioners were instructed to open negotiations for the purchase of the whole block.

Mrs. Amy Sanderson ordered the city to remove telegraph poles from her property before the 8th of October on pain of legal action. The commissioners and city solicitor were instructed to investigate the matter and report.

City Solicitor Brown stated that the Burns' slaughter house people had promised to discontinue business by

Jan 1st, 1911. In the meantime the city had begun action to force the removal and would come up at the November session. As a result action will cease.

The finance committee reported accounts to the amount of \$47,333.85, recommending adoption. The accounts were ordered to be paid.

In regard to the proposal of Ald. Armstrong that policemen and firemen should be allowed to ride on the street railway free of charge while on duty, the commissioners reported that they considered the present arrangements to be practicable and businesslike. The departments purchase tickets and distribute them among employees entitled to them, and the commissioners are taking steps to have tickets of a special design and color for the purpose. The report was adopted.

The recommendation of the commissioners that the relatives of the late H. A. Jones, who was killed some time ago while working on the city's wires, be paid \$300 as an appreciation of the deceased's faithful services. The city solicitor had previously decided that the case was not under the Workmen's Compensation Act. Ald. McInnis thought that if the city was liable a full amount should be paid, namely about \$1800, and if not, nothing at all should be paid in the way of compensation. The report was adopted.

All the aldermen were present with the exception of Ald. Armstrong. There were quite a number of spectators who had presumably come to see if anything strenuous would take place as a result of the developments of the past few days in the agitation against the commissioners. They were disappointed, however, as the meeting was quiet throughout.

THE NEW PRINCIPAL.

(Continued from page one.)

was called to the chair of Philosophy in Fredericton, New Brunswick, and subsequently to Queens University.

In this latter institution, he has exercised a very marked influence over the students. While he is a writer and thinker of standing, Dr. Dyde has taken a very practical interest in Educational and religious affairs. He became a leader in the movement to resist the separation of Queen's from the Presbyterian Church, and his voice is heard in the General Assembly with the greatest respect. He is full of plans for the new College and is looking forward with eagerness to his work in the west.

The Board of the Presbyterian College is certainly to be congratulated on the boldness as well as the wisdom of its choice, and a united feeling and warm welcome await Principal Dyde when he comes to his province next spring.

Possibly his first public appearance will be at the Presbyterian Synod meeting in Calgary early in May.

WEEKLY

Auction Sale

In our Rooms, 341 Nanyayo Avenue.

Thursday, October 6th, 7.30 p.m. the following goods will be sold:

'SCONA TO ASK FOR CARNEGIE LIBRARY

Committees Appointed to Petition
the Pittsburgh Philanthropist
and the Government.

Will the citizens of Strathcona ap-
ply to Mr. Andrew Carnegie for aid
in starting a library or will they not,
was the question taken up at a meet-
ing of citizens held in the council
chamber of the Strathcona city hall
last evening. Dr. Kerr acted as
chairman and the arguments as to a
Carnegie library were presented pro
and con by himself and Mr. E. F. Hill
and a number of others.

Mr. Hill gave an outline of the Car-
negie scheme and the various condi-
tions on which the assistance is given,
namely, a free site and mainte-
nance amounting every year to ten
per cent. of the original grant. There
would be no difficulty in getting Mr.
Carnegie's assistance up to a certain
sum, but for a city of Strathcona's
size \$500 would probably be the limit.

Of course, a library could be es-
tablished independent of help. But
to secure the government grant a pe-
tition must be circulated and signed
by ten per cent. of the ratepayers.

Mr. Hill expressed himself as in
favor of co-operation between the city
and the university. Just how this is
to be brought about was not explained,
but it will possibly be in books
of reference which there is no reason
for duplicating. A joint library
would secure both to citizens and stu-
dents a wide range of reading.

The meeting finally appointed two
committees, one to circulate a pe-
tition for starting a library composed
of Messrs. N. C. Wilson, E. L. Crumb
and J. H. Macdonald and a second
one to communicate with Mr. Car-
negie, composed of Messrs. McKee, Hill
and Calder.

WERE THEY BEDS OR NOT? THAT WAS THE QUESTION

The case against Sam Sing for sell-
ing liquor without a license, was be-
gan in the police court this morning.
Sergeant McCallum gave evidence to
the effect that there were twenty cases
of liquor found on the premises, some
cans and an opium outfit.

"There were five beds in the five
small rooms weren't there?" asked Mr.
Parlee.

"I would not consider them to be
beds," was the answer.

Thereupon there followed a long argu-
ment as to whether they were such
things as Chinamen sleep on and
therefore might be called beds. The
sergent said the know Chinese beds
and that these were not. He described
them as platforms covered by a blan-
ket.

Mr. Parlee, for the defense, thought
they were beds and that the sergent
was not giving an unbiased opinion.
The question of where the police got
the information that led them to
search the premises, was gone into.
Mr. Parlee asked where the infor-
mation came from and Mr. Cogswell
promptly objected and was supported
by a ruling of the magistrate.

SUPREME COURT CASES

In the Supreme Court this morning
Judge Beck gave judgment to the
Winnipeg Free Press for a claim of
\$451.05 against the American Cana-
dian Oil Co. for advertising done for
defendants. The evidence was all tak-
en by a commission at Winnipeg and
though the defendants objected to
this way of obtaining evidence, their
objection was overruled. Judgment
was for the amount of the claim with
out interest and costs.

The following cases will be tried
at this court term:

Oct. 4—Magoon vs. Macdonald, Im-
perial Bank vs. Suppenhush.

Oct. 5—Grant vs. Gardner, Evans
vs. Evans, Bordeaux vs. Renault.

Oct. 6—Larose and Bell vs. Stap-
ley and McGinnis, Edmonton Iron
Works vs. Derksen.

Oct. 8—Shaw vs. Layton, McCal-
lum vs. Smith.

Oct. 10—Fairchild vs. Elmlic, Car-
michael vs. Wilson, Hughes vs. Pom-
erauk.

Oct. 11—Hartman vs. Howeson and
Derksen.

Bellevue Co. et al., vs. Miller, et al.
Oct. 12—McPhee vs. Baker, Local
Improvement Act, Div. 4, Dist. 30,
Town 4.

Oct. 13—14—Denman vs. Clover Bar
Coal Co.

Oct. 15—Vanderhouten vs. Van-
derhouten.

Oct. 17—Westman vs. Foley, Welch
and Stewart.

The court will be very pressed for
time this term and Judge Beck an-
nounced that court would sit on Sat-
urday afternoons.

Shiloh's Cure
 quickly stops coughs, cures colds, heals
 the throat and lungs.

TAKE CASES G.T.P. LABORERS TO GOVT.

The treatment of laborers by the
construction company on the G. T. P.
west was the subject of a discussion
last night by the Trades and Labor
Council. Several affidavits by men
who have been west and suffered
hardships under the conditions as
they are at present, were taken and
it was decided to forward copies to
Hon. McKenzie King, Minister of La-
bor, the Hon. Frank Oliver and the
Dominion Trades and Labor Con-
gress.

A resolution will also be forwarded
asking that restrictions be placed on
the employment agencies, binding
them to give more explicit infor-
mation to the men concerning the con-
ditions existing at the places where they
are to work.

DECIDE TO RETAIN SITE

The congregation of First Presby-
terian Church at a meeting held last
night decided to cancel their decision
taken some weeks ago to dispose of
the property at the corner of Third
street and Jasper avenue. It is hoped
that by taking a mortgage for the
building of a new church and hold-
ing the old property a better price
can be realized.

Other matters brought up were the
declaration for incorporation re-
quired by the new holdings act and the
severance of Mr. Dowling's connec-
tions. Mr. Dowling was pressed to
stay as assistant, but could not ac-
cept.

Hume, the Historian.

Hume, the historian, was said to be
the ugliest man of his time. His face
was fat, coarse and vulgar, with no
striking or pleasing features.

Mexican Asphalt.

Pure liquid asphalt seeps from the
earth in a number of places in the
Mexican state of Tamaulipas, but so
far from existing methods of transpor-
tation that no efforts have been made
to exploit it.

False Curis.

In preparing human hair for sale it
is first assorted, combed and washed
in boiling water to which a weak so-
lution of soda or ammonia is added,
then assorted as to colors. The short
hairs are wound around little glass
bars placed in a color heated kiln five
or six days, when they are ready for
sale as "curis."

Earthenware.

A fine, shell-like surface is given to
earthenware by exposing it when
fired to direct contact with flames
from a fire fed with salt.

Fish in Japan.

The Japanese eat more fish than any
other people in the world. With in the
most eating is a foreign innovation,
confined to the rich, or rather to those
rich people who prefer it to the na-
tional diet.

Shoe Laces.

When the tips come off shoe laces
make a little sealing wax and in the
ends of the laces, rolling them between
the fingers till they are shaped.

Lightning Losses.

Lightning causes on an average of
250 deaths and a property loss of more
than \$5,000,000 annually. In the same
length of time it injures 800 persons
and kills 4,500 head of live stock in
the fields.

Cheese In Switzerland.

It is not easy to get good cheese in
Switzerland, the best being exported.

A Forbidden Air.

In India military bands are forbid-
den to play "Home, Sweet Home," be-
cause of its pathos having so potent
an effect on the English people who
may hear it.

Emery and Corundum.

With the exception of the diamond,
emery and corundum are the best nat-
ural abrasives known. Corundum is
pure aluminum oxide and is the hard-
est next to that of the diamond. Emery
so far as composition goes may be
considered a mixture of corundum
with more or less magnetite or hematite.

The Worm Flywheel.

The winding of a flywheel usually
begins by the starting of a minute
crack on the under surface of the rim
near the end of an arm.

Man and Horse.

The working power of an able-bodied
man is about one-tenth that of a horse.

African Timber.

It is estimated that the Gold coast
and Ashanti could supply over 60,000
logs of mahogany and cedar a year if
the internal communication were bet-
ter. With mechanical haulage such as
traction engines and light railways,
the output could be increased to a
quarter of a million logs a year with-
out depleting the natural reserves.

Poultry.

When you choose poultry see that
the beak and claws of a fowl are soft,
not stiff or horny. The bones of all
young birds are soft.

"The Highlands" REVIEW

The Perfect Man!

There is a man who never drinks,
Nor smokes, nor chews, nor swears,
Who never gambles, never flirts,
And shuns all sinful snares.
—He's paralyzed!

There is a man who never does
A thing that is not right;
His wife can tell just where he is
At morning, noon and night.
—He's dead!

P.S.—We have no intention of burying or even paralyzing
you in "The Highlands," but can assure you of a good, com-
fortable and high class Residential Site.

PERSONAL

A. A. Allan Jr., and Heber Phillips, two prominent young business men, of Toronto, were visitors to the city yesterday, returning from the coast.

After being away from Edmonton nearly ten months, on a tour of the world, H. H. Helliwell arrived back last evening. During his tour he visited fifty different countries and changed the currency of his money eighteen times, and visited many places where the average tourist seldom goes.

JOHN A. GUNN HERE

A young man visited Edmonton yesterday who has recently succeeded to a position of great responsibility in the Canadian commercial world, John A. Gunn, head of Gunn's Limited, Toronto and Montreal. Within the past year his father and his uncle, who established this, the largest firm of produce dealers in Canada, have both died. A large business is done with the west, and Mr. Gunn has been making an extended trip in this part of the Dominion for the purpose of becoming thoroughly acquainted with conditions here.

MELBA RUSH TICKETS.

Owing to the request of a large number of students who desire to hear Melba at the Thistle Rink tonight, Mr. Frederick Shipman, the manager of the Melba tour, has consented to issue a limited number of rush tickets at two dollars each, which will be on sale at Harmony Hall at ten o'clock this morning, also at the Thistle Rink ticket office at 7:15 o'clock tonight.

The ticket box office at Harmony Hall for Melba closes at four o'clock sharp today, after which reserved seats may be purchased at Thistle Rink tonight at 7:15. Doors open at 7:30.

The Melba concert tonight begins at 8:30 sharp, and it is specially requested by the management that every one will be in his seat previous to this hour.

To hear the music of Paradise be sure and listen to Madame Sasso's Celestial Harp-Playing at the Thistle Rink tonight.

The world's greatest flute player, Mr. John Lemmon, can be heard tonight at the Melba Concert at the Thistle Rink.

TODAY'S MARKETS

Winnipeg, Oct. 5.—Grain prices today are: Wheat, (futures), October, 98½; 99½; November, 97½; 98½; December, 96½; 97½; May, 101½; 102½. Cash (close) Number 1 northern, 100½; No. 2 northern, 99½; No. 3 northern 92½. Number 2 white oats, 34. Flax 2.45.

Hat Pies.
During the siege of Paris rat pies were largely eaten. The Paris Journal in the month of December, 1870, gravely published directions for catching the rats, which swarmed in the sewers of the city.

A Lucky Blow.
Noting a projecting ledge, a poor prospector struck it a casual blow with a sledge, and one of the world's famous gold mines was discovered. The poor prospector was Stratton. No wonder he called this mine the Independent, for it made him independent, converting the prospector into a rich man.

Ultramarine.
Ultramarine is now furnished by chemistry at half the price of copper, whereas in the form of lapis lazuli in the days of Lilliput it was dearer than gold.

Melba Rink

Some choice reserved seats are still available at \$5, \$4, and \$3 at Harmony Hall, the Geo. H. Suckling Depot for the Famous Pianos of Nordheimer, Steinway and Sons, Haines Bros., etc. A limited number of Admission (rush) Tickets at \$2 will be issued.

Tonight

"The Fire of Her Soul in Her Voice"

ON one occasion the inspiring MELBA was singing before an audience of critics who were prepared to adversely criticize and condemn at the least provocation. The above sentence was their verdict, and, ever since, she has endeavored to use this heavenly gift for the purpose of lifting one's soul to higher thoughts and deeds.

Tomorrow night MELBA will be with us at the rink ready and willing to inspire—will you come? It is a treat never to be forgotten—come and hear the loveliest singer the world has ever produced.

Tickets are on sale at \$3, \$4 and \$5.

FOR THE MELBA-EDMONTON CONCERT next Wednesday at the Thistle Rink there are several hundred of the choicest seats still available at Harmony Hall.
